We believe that the strength of the Company's unique investment strategy – which focuses on middle market defensive growth companies that are well researched by New Mountain Capital, L.L.C. ("New Mountain"), a leading alternative investment firm, is underscored by continued stable credit performance. The Company has had only eight portfolio companies, representing approximately \$125 million of the cost of all investments made since inception in October 2008, or approximately 1.9% of \$6.7 billion, go on non-accrual.

Robert A. Hamwee, CEO, commented: "The first quarter represented another solid quarter of performance for NMFC. We originated \$158 million of investments and once again had no new investments placed on non-accrual. Additionally, we are pleased to have maintained a steady portfolio yield while increasing book value."

"As managers and as significant stockholders personally, we are pleased with the completion of another successful quarter," added Steven B. Klinsky, NMFC Chairman. "We believe New Mountain's focus on acyclical "defensive growth" industries and on companies that we know well continues to be a successful strategy to preserve asset value."

Portfolio and Investment Activity¹

As of March 31, 2019, the Company's NAV was approximately \$1,083.3 million and its portfolio had a fair value of approximately \$2,545.8 million in 98 portfolio companies, with a weighted average YTM at Cost² of approximately 10.0%. For the three months ended March 31, 2019, the Company made approximately \$158.0 million of originations and commitments³. The \$158.0 million includes approximately \$102.2 million of investments in six new portfolio companies and approximately \$55.8 million of follow-on investments in eleven portfolio companies held as of December 31, 2018. For the three months ended March 31, 2019, the Company had cash repayments³ of approximately \$5.9 million.

Consolidated Results of Operations

The Company's total investment income for the three months ended March 31, 2019 and 2018 was approximately \$64.2 million and \$52.9 million, respectively.

The Company's total net expenses, after income tax expense, for the three months ended March 31, 2019 and 2018 were approximately \$36.7 million and \$27.2 million, respectively. Total net expenses, after income tax expense, for the three months ended March 31, 2019 and 2018 consisted of approximately \$19.1 million and \$11.3 million, respectively, of costs associated with the Company's borrowings and approximately \$15.3 million and \$13.8 million, respectively, in net management and incentive fees. Since the Company's initial public offering ("IPO"), the base management fee calculation has deducted the borrowings under the New Mountain Finance SPV Funding, L.L.C. credit facility (the "SLF Credit Facility"). The SLF Credit Facility had historically consisted of primarily lower yielding assets at higher advance rates. As part of an amendment to the Company's existing credit facilities with Wells Fargo Bank, National Association, the SLF Credit Facility merged with and into the New Mountain Finance Holdings, L.L.C. credit facility (the "Holdings Credit Facility") on December 18, 2014. Post credit facility merger and to be consistent with the methodology since the IPO, New Mountain Finance Advisers BDC, L.L.C. (the "Investment Adviser") will continue to waive management fees on the leverage associated with those assets held under revolving credit facilities that share the same underlying yield characteristics with investments that were leveraged under the legacy SLF Credit Facility, which as of March 31, 2019 and 2018 totaled approximately \$632.2 million and \$323.3 million, respectively. For the three months ended March 31, 2019 and 2018 management fees waived were approximately \$2.5 million and \$1.3 million, respectively. The Investment Adviser cannot recoup management fees that the Investment Adviser has previously waived. The Company's net direct and indirect professional, administrative, other general and administrative and income tax expenses for the three months ended March 31, 2019 and 2018 were approximately \$2.3 million and \$2.1 million, respectively.

For the three months ended March 31, 2019 and 2018, the Company recorded approximately \$16.4 million and (\$1.9) million of net realized and unrealized gains (losses), respectively.

Liquidity and Capital Resources

As of March 31, 2019, the Company had cash and cash equivalents of approximately \$65.6 million and total statutory debt outstanding of approximately \$1,359.1 million⁴, which consisted of approximately \$567.0 million of the \$675.0 million of total availability on the Holdings Credit Facility, \$135.0 million of the \$135.0 million of total availability on the Company's senior secured revolving credit facility (the "NMFC Credit Facility"), \$50.0 million of the \$100.0 million of total availability on the Company's secured revolving credit facility (the "DB Credit Facility"), \$270.3 million⁵ of convertible notes outstanding and \$336.8 million of unsecured notes outstanding. Additionally, the Company had \$165.0 million of SBA-guaranteed debentures outstanding as of March 31, 2019.

Portfolio and Asset Quality

The Company puts its largest emphasis on risk control and credit performance. On a quarterly basis, or more frequently if deemed necessary, the Company formally rates each portfolio investment on a scale of one to four. Each investment is assigned an initial rating of a "2" under the assumption that the investment is performing materially in-line with expectations. Any investment performing materially below our expectations, where the risk of loss has materially increased since the original investment, would be downgraded from the "2" rating to a "3" or a "4" rating, based on the deterioration of the investment. An investment rating of a "4" could be moved to non-accrual status and the final development could be an actual realization of a loss through a restructuring or impaired sale.

As of March 31, 2019, all investments in our portfolio had an investment rating of "1" or "2" with the exception of one portfolio company that had an investment rating of "4". The Company's investment in this portfolio company had an aggregate cost basis of approximately \$1.5 million and an aggregate fair value of less than \$0.1 million.

Recent Developments

The Company had approximately \$45.2 million of originations and commitments³ since the end of the first quarter through May 1, 2019. This was offset by approximately \$19.5 million of repayments³ during the same period.

On April 1, 2019, after receiving the required stockholder approval, the Company amended its Amended and Restated Certificate of Incorporation to increase the number of authorized shares of the Company's common stock from 100,000,000 shares to 200,000,000 shares.

On April 30, 2019, the Company entered into a fourth supplement (the "Supplement") to the Company's Amended and Restated Note Purchase Agreement, dated September 30, 2016 (the "NPA"). Pursuant to the Supplement, on April 30, 2019, the Company issued to certain institutional investors identified therein, in a private placement, \$116.5 million in aggregate principal amount of 5.494% Series 2019A Notes due April 30, 2024 (the "2019A Unsecured Notes") as an additional series of notes under the NPA. Except as set forth in the Supplement, the 2019A Unsecured Notes have the same terms as the \$90.0 million in aggregate principal amount of the 5.313% Notes due May 15, 2021, the \$55.0 million in aggregate principal amount of the 4.76% Series 2017A Notes due July 15, 2022, the \$90.0 million in aggregate 4.870% Series 2018A Notes due January 30, 2023 and the \$50.0 million in aggregate principal amount of the 5.360% Series 2018B Notes due June 28, 2023 (collectively, the "Prior Notes") that the Company previously issued pursuant to the NPA and the first, second and third supplement thereto, respectively. The 2019A Unsecured Notes will rank equal in priority with the Company's other unsecured indebtedness, including the Prior Notes. Interest on the 2019A Unsecured Notes will be payable semi-annually in arrears on April 15 and October 15 of each year, commencing on October 15, 2019.

On May 1, 2019, the Company's board of directors declared a second quarter 2019 distribution of \$0.34 per share payable on June 28, 2019 to holders of record as of June 14, 2019.

¹ Includes collateral for securities purchased under collateralized agreements to resell.

² References to "YTM at Cost" assume the accruing investments, including secured collateralized agreements, in our portfolio as of a certain date, the "Portfolio Date," are purchased at cost on that date and held until their respective maturities with no prepayments or losses and are exited at par at maturity. This calculation excludes the impact of existing leverage. YTM at Cost uses the LIBOR curves at each quarter's respective end date. The actual yield to maturity may be higher or lower due to the future selection of LIBOR contracts by the individual companies in the Company's portfolio or other factors.

³ Excludes revolving credit facilities, netbacks, payment-in-kind ("PIK") interest, bridge loans, return of capital and realized gains / losses.

⁴ Excludes the Company's United States ("U.S.") Small Business Administration ("SBA")-guaranteed debentures.

⁵ Includes premium received on additional convertible notes issued in September 2016.

ABOUT NEW MOUNTAIN FINANCE CORPORATION

New Mountain Finance Corporation is a closed-end, non-diversified and externally managed investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940, as amended. The Company's investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. The Company's first lien debt may include traditional first lien senior secured loans or unitranche loans. Unitranche loans combine characteristics of traditional first lien senior secured loans as well as second lien and subordinated loans. Unitranche loans will expose the Company to the risks associated with second lien and subordinated loans to the extent it invests in the "last out" tranche. In some cases, the investments may also include small equity interests. The Company's investment activities are managed by its Investment Adviser, New Mountain Finance Advisers BDC, L.L.C., which is an investment adviser registered under the Investment Advisers Act of 1940, as amended. More information about New Mountain Finance Corporation can be found on the Company's website at <http://www.newmountainfinance.com>.

ABOUT NEW MOUNTAIN CAPITAL

New Mountain Capital is a New York based investment firm focused on long-term business-building and growth investments. The firm currently manages private equity, public equity, and credit funds with over \$20 billion in assets under management. New Mountain seeks out what it believes to be the highest quality growth leaders in carefully selected industry sectors and then works intensively with management to build the value of these companies.
